Supervisors Move Forward on Lake Gregory Trail

San Bernardino - The Board of Supervisors have taken one of the last required steps leading to the construction of the Outer Lake Gregory Trail by approving the trail's plan and beginning the selection process for construction companies.

"Upon completion, the Outer Lake Gregory Trail will be an enhancement to the many recreational opportunities available at lake," said Supervisor Paul Biane as the plans were approved. The Board of Supervisors recently adopted a Mitigated Negative Declaration based on an environmental study that concluded that the trail construction would not have a significant effect on the environment.

The trail's construction will accommodate many of the concerns voiced over the years about the safety of pedestrians and recreational users at the lake. Moreover, it will provide residents with additional means to reach the lake at various points along its route. The Outer Lake Gregory Trail, which is an addition to the existing Fitness Trail at the lake, will be accessible to those with disabilities.

"It is my goal to make it possible for those who live in Crestline and those who visit the mountain community, to be able to take full advantage of everything Lake Gregory has to offer," Supervisor Biane said. Boating, swimming, fishing

and hiking are some of the outdoor activities enjoyed at Lake Gregory, which is located high in the San Bernardino Mountains and operated by the County's Region Parks Department.

Since his election in 2002, Supervisor Paul Biane has served the communities of San Antonio Heights, Mount Baldy, Lytle Creek, Devore, the cities of Upland and Rancho Cucamonga in addition to Crestline, the Valley of Enchantment and Lake Gregory.
